

DO YOU HAVE A YOUNG ASPIRING OLYMPIC ATHLETE AT YOUR SCHOOL OR SPORTS CLUB?

Last summer we launched our very own "Legacy Project" to celebrate the achievement of Team GB at London 2012. Following its success, as recognised by Lord Sebastian Coe, we are continuing the project for a second year. We are offering 10 **FREE** places at our gym for local, high achieving talented individuals aged 8-18, who have ambitions to progress to a higher level in their sport.

Applicants are invited for a free 12 month gym membership with additional access to sport science support in the form of strength and conditioning sessions, sports massage and physiotherapy.

**Join us in our commitment to help our local sporting community
achieve excellence in their field.**

See overleaf for details.

"The Legacy Project has given me access to much more equipment than anywhere else and to have a programme to follow has helped massively, as I did not really know what to do to make myself better"
— James Cook, current Legacy Project athlete

"The legacy project has allowed me access to a gym which I did not have before in this country. It has been great to feel part of a team here and get extra support with my physical training."
— Anna Henderson, current Legacy Project athlete
